In person & Online offerings!

Having cancer is often one of the most stressful experiences in a person's life. However, support groups help many people cope with the emotional aspects of cancer by providing a safe place to share their feelings and challenges and learn from others who are facing similar situations.

Our Cancer Support Group is designed for anyone who has, or had, cancer and those who care for them. In our support meetings patients receive emotional and educational support through their cancer experience.

Topics may include:

- *Communication
- *Making Decisions
- *Action Planning

- *Self-Advocacy
- *Nutrition
- *Mental Wellness

- *Spiritual Care
- *Problem Solving
- *Special Guests
